Subject: Microsoft Settlement

Gentlemen:

If you won't enforce the findings of the Court, who will?

If you won't enforce a meaningful punishment upon a monopoly, to whom can we citizens turn?

The Enron debacle shows what happens when the Executive branch of the government is in the pockets of corporate power.

Is the Judicial branch in the pockets of Microsoft?

The proposed settlement is unfair to consumers, and beneficial to MicroSoft.

You **must** do better.
